Education

University of British Columbia

Bachelor of Applied Science - Computer Engineering (Dean's List: 3.8 GPA)

Expected Graduation: May 2028

Vancouver, BC

Experience

BC Maritime Employers Association

QA Software Engineer (Co-op)

May 2026 – December 2026

Vancouver, British Columbia

- Built end-to-end Playwright (JavaScript) test suites that expanded regression coverage across critical B2B workflows.
- Automated REST endpoint testing with C# and NUnit, backed by Postman for exploratory and edge-case scenarios.
- Queried production and test databases in SQL to verify data integrity and trace defects below the UI layer.

Sitewise Analytics

Software Engineer (Co-op)

May 2025 – September 2025

Vancouver, British Columbia

- Shipped features for an enterprise SaaS app in React, TypeScript, Redux Toolkit (RTK Query), and Vite.
- Built data-driven UI components wiring backend APIs to the Google Maps API for dynamic visualizations.
- Migrated the front-end build to CI/CD with automatic PR builds, previews, and coverage checks.

Turing AI

STEM Annotator Internship (Google)

December 2024 – January 2025

Vancouver, British Columbia (Remote)

- Led CS and Physics teams writing and verifying AP-level problems for training and validation datasets.
- Benchmarked AI responses across models with rubric-based comparisons, reporting failure modes to guide iteration.

Richmond Country Club

Tennis Instructor (Part-Time)

November 2020 – June 2023

Richmond, British Columbia

- Coached beginner and intermediate students aged 4–13 on technique, fundamentals, and match play.

Projects

Autonomous Vehicle with Reinforcement Learning Agent | ROS 2, PyTorch, OpenCV, LiDAR, Python

- Built an autonomous driving stack in ROS 2 on Linux, fusing LiDAR and OpenCV vision for real-time perception and obstacle detection.
- Trained a PyTorch reinforcement learning agent that adapts driving behavior to changing track conditions.
- Implemented classical control in Python (gap following, wall following, automatic emergency braking) as a safety layer beneath the learned policy.

NBA Stats & Fantasy Trade Analyzer | React, TypeScript, Python, Scrapy, PostgreSQL, AWS

- Built and deployed a full-stack NBA fantasy and analytics platform solo, with live scores, roster management, and sports-bet logging with real-time odds.
- Added AI-powered team analysis and trade suggestions via the Anthropic Claude API, backed by a Python/Scrapy pipeline into PostgreSQL.
- Built the front end in React and TypeScript with 200+ automated tests across layers using Vitest, Supertest, and Playwright.
- Ran it on a serverless AWS stack (Lambda, API Gateway, CloudFront) with two-environment CI/CD and OIDC-federated deploys.

Token-Gated Personal Website | AWS Lambda, API Gateway, DynamoDB, S3, CloudFront, React/TypeScript

- Built a private, token-gated portfolio with privacy-respecting analytics and no invasive tracking.
- Wrote a serverless backend on AWS Lambda and API Gateway handling token validation and request logging.
- Stored tokens and metadata in DynamoDB, serving the React/TypeScript front end through CloudFront and S3.

Technical Skills

Languages: C++, C, C#, Java, Python, TypeScript, JavaScript, SQL, ARM Assembly, Verilog
Frontend: React, Redux Toolkit, RTK Query, HTML, CSS, Vite
Backend & APIs: Node.js, REST APIs, Postman, Apidog, Express, PostgreSQL, DynamoDB
Testing/QA: Playwright, NUnit, Vitest, BrowserStack
Cloud & DevOps: AWS Lambda, S3, CloudFront, API Gateway, CI/CD, SAM CLI, GitHub Actions
Embedded & Hardware: Arduino, ModelSim, Quartus, GDB, Wireshark
Robotics & ML: ROS2, LiDAR, OpenCV, PyTorch
Tools: Git, Linux/Ubuntu, Figma, LaTeX, MCP Servers, VMWare, NVIDIA Jetson, Docker

Athletics & Leadership

UBC Men’s Varsity Tennis Team <i>University of British Columbia</i> - Team results: Canadian U SPORTS Champions (2024, 2026), Runner-up (2025). - Former Top 9 Player in Canada; 12 years competitive experience. - High school team captain (2021–2023), led team to 2 provincial championships.	Captain Vancouver, BC
Valorant Esports <i>Magee Secondary School</i> - Led high school team to 2 provincial championships. 2x provincial MVP. - Consistent top 600 player in North America.	Team Captain Vancouver, BC
